

FALU RÖDFÄRG SEAT PAD

Now Falu Rödfärg makes it a bit easier to carry a piece of thoughtfulness – Mia Svalänge has created three new color schemes with the same symbolism and love as the Falu Rödfärg blanket, divided into smaller, momentary pieces. The Falu Rödfärg seat pads are made from 100% pure, new Norwegian wool. This natural product boasts unique properties. The wool insulates very well due to the wool fibers' crimp and also absorbs moisture without losing its insulating capacity – it warms you instantly.
